POP-UP TEAHOUSE BERLIN

Summer 2022 Programm

“OPEN!” is the overall motto of this summer’s Pop-Up Teahouse at C*SPACE Berlin. In cooperation with several co-curators and hosts, the program will unfold in a variety of formats. Some are “perennials” from last year, others were newly “seeded” in various dialogues with people in our community over the winter months. The program also contains open empty “fields” for yet unknown “flowers to bloom”, and we are open for spontaneous pop-ups at or beyond the dates mentioned. What unites all formats, be they contemplative, artistic, or more provocative, is the cultivation of open minds and open hearts, curiosity, and courage, all much needed to help us regenerate and face the challenges of our times. Of course, there will also be plenty of tea to be had together!
